

## **Solution Consultant development program**

Are you looking for a great opportunity to develop yourself and be part of an international team? Then join our development program and make your first steps in Enterprise Performance Management (EPM) consulting.

### **What we can offer you**

During the assessment & training program, which is completely in English, you will be evaluated and coached on a regular basis. If you successfully complete the assessment phase and a good fit has been proven, you will be offered the opportunity to join us. We will offer you:

- International experience at appealing companies of all sizes in various industries
- An open work climate where innovation and development are encouraged
- The challenge to work both independently and in teams
- An opportunity to develop your consultancy skills and become an expert in the field of EPM
- The possibility to grow both personally as well as professionally
- An opportunity to be part of a dynamic team with an entrepreneurial mindset willing to share its knowledge with you

### **Who we are**

Sonum International offers consulting and implementation services to perform planning, budgeting and forecasting, and consolidation processes, with less effort and more impact. The mix of accounting, business and technology expertise makes our delivery capabilities unique. We are based in the Netherlands and Spain but work around the globe to assist top organizations with their financial processes.

We don't believe in corporate structures, we do believe in people that take responsibility and want to be entrepreneurs.

### **The development program**

Before the start of the development program, you will follow the online Anaplan training which will be followed by a 2-week assessment & training program. After that, the development program will continue with another 4 weeks of training will cover the following:

- Introduction in general Finance processes such as Planning, Reporting and Consolidation
- Introduction into tools for planning, forecasting and financial reporting (Anaplan & Vena Solutions), Advanced Excel training and developing demo's
- Project Management skills training (including Agile and Scrum methodology)
- Presentation and advisory skills training
- Marketing / Social media and commercial awareness training
- Personal coaching and Team building events
